

SECRETARY OF THE AIR FORCE  
WASHINGTON

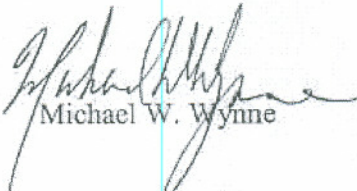

09 DEC 2005

MEMORANDUM FOR ALMAJCOM/OFA/DRU  
DISTRIBUTION C

SUBJECT: Appointment of the Air Force Senior Energy Official

Dr. Ronald Sega is appointed as the Air Force Senior Energy Official. In this capacity, Dr. Sega will represent the Air Force as we work with the Department of Defense to shape a comprehensive energy strategy. He will chair a senior focus group and provide direction and oversight of Air Force energy use and energy conservation opportunities.

Dr. Sega will lead a diverse team as represented on the attached organizational chart. Our strategy will focus on each major element of Air Force energy use—aviation, installations, and ground transportation—and will expand on the principles of the National Energy Policy Act of 2005. I ask all of you to support this important project.

  
Michael W. Wynne
